SENATE READY TO BEGIN WORK

Lists of Committee Appointments Put Through Without Much Friction.

FORMAL PROTEST IS MADE BY INSURGENTS

Chairman Gallinger Content to Let the Country Determine Right of Matter.

WASHINGTON. April 28.—The senate formally organized for business to day by adopting the list of appoint ments to committees drawn up by the majority of both sides. The expected fight against the adoption of the lists threatened by the progressive Republicans did not develop. Senator La Follette contenting himself with reading a formal protest against the selections made by the regular Republicans.

The La Follette statement, prepared at a conference of thirteen insurgents. Senator Kenyon, the new senator from Iowa having joined the original twelve set forth at some length the growth of the so called progressive movement in the Republican party.

they have become a "settled and estab-lished fact in political history."

The progressives, it was claimed, had a right to one-fourth representation on the various committees. The protest was directed especially against the finance committee on which the insur-gents wished to place Senator Bristow and the interstate commerce committee on which Mr. La Follette desired a place.

Three of the nine Republicans on the interstate commerce committee, it was pointed out, were from New England. and it was asserted that this committee had been left in the hands of persons

When Mr. La Follette had concluded the insurgent statement, Senator Galinger, chairman of the committee on committees, said he was content to let the insurgent statement go before the country, together with the list of committee as framed. Mathematically he declared the insurgent wing was entitled to 100 committee places. As a matter of fact, they were given 114 places.

"In the division of assignments," he added, "the committee on committees believes it was acting equitably and justly."

The committee list was then adopted with only a few scattering "noes' from the insurgents.

The progressive Republicans last night abandoned hope of winning their fight to have Senator La Follette placed on the interstate commerce committee and Senator Bristow on finance. The Democrats dechined to be drawn into factional dissentions, recognizing the right of the Republican majority to make its own selections. Therefore the defeated insurgents were content with making formal protest, in this way setting forth their reasons for their stand in the controversy.

Tariff again holds the attention of the house. After having been laid aside to permit the passage of the reapportionment measure, the free list is under consideration. Debate, it is expected, will extend over several days.

PHYSICIANS GIVE NO HOPE OF RECOVERY

Daughter of Marcus Daly Reaches New York, but Her Condition Does Not Improve.

NEW YORK, April 28—Mrs. Carroll Brown of Baltimore, the eldest daughter of Marcus Daly, ended here today her flight from the thin air of the Montana mountains with death almost the victor. The tang of the sea air and the heavier atmosphere brought no revival of her waning strength and physicians at her bedside gave little hope for her recovery. Her private car, in which she was rushed to sea level, reached the Grand Central station at 6 o'clock. A few minutes later Mrs. Brown was on her way to the Fifth avenue home of her mother, Mrs. Daly. Physicians were awaiting her and tonight they held a consultation.

"We do not know exactly what is the nature of Mrs. Brown's allment," was the statement given out at the Daly home afterwards. "Her heart is affected and her condition is very grave." BARON DE CONSTANT

ADVOCATES SUFFRAGE

MH.WAUKEE, April 28—Baron d'Estournelles de Constant sees in woman suffrage a powerful factor for international friendship. In an interview today he said:

"Every autocratic government fears woman and her influence. She is the obstacle which autocracy sometimes finds in its path. No government tyranny, no policy of exploitation and conquest is conceivable in a country where woman is free. Our literature bears witness that woman is the real obstacle to the spirit of conquest.

"The influence of woman today is spreading. Disregarding a few dolls, or carleatures, which are inevitable and negligible, this influence of woman is constantly working against war. Anything that tends to emancipate woman helps the movement for international peace. For this reason, I believe in the ballot for women."
